Ambarcup is back for 2014!

Our annual Staff versus Students 7 game competition.

- First up – an old fashioned game of playground handball.
- 80 students competing against 8 staff.
- The temperature was 31 degrees on the courts and the games was hot, hot, hot!!!
- Students took an early lead, playing with fierce accuracy. But staff experience and expertise prevailed.
- Final score: STAFF 84 - STUDENTS 68.

Mums and Dads of our new Year Sevens!

On Tuesday the 8th of April, Ambarvale High School will be holding its annual 'Meet and Greet'.

- This is a popular event which gives Parents and Carers of Year 7 students the opportunity to meet with Year 7 Teachers and collect their child’s first high school report.
- Year 7 students also have the opportunity to present examples of work that they have created during the first term of high school. It will be held in the school library between 3.30 and 5pm and light refreshments will be available.

Science Club – Burning Hot

- During the course of Term 1, the Science Clubbers have been working on a special project called the 'mousetrap car'.
- Also during Term 1 Ms Potts and Ms Reilly have been undertaking some challenging experiments with students. The students have made a rocket by creating a chemical reaction. The rockets reached heights greater than a metre, which is outstanding.
- Science Club is every Wednesday in the Science Block and we encourage all students to attend!
The most important dates coming up:

- April 8 – Year 7 Parents Meet and Greet – 3.30 to 5.00pm
- April 11 – Last day of school for Term 1
- April 28 – Staff Development Day
- April 29 – Students return for Term 2

"Students in Year 8 Maths participated in an "Inquisitive Minds" workshop in week 9. Lots of fun challenges and puzzles. Congratulations to our winning teams!"
